10 YEARS OF BLOCKCHAIN: 2010-2019

O V E R V I E W

The global financial crisis of 2008 exposed the financial inequality throughout the world economies. On January 3rd 2009, a mysterious figure named as Satoshi Nakamoto created a virtual currency and named it as Bitcoin, that functioned on what he/she/they called as 'Proof of Work chain'

In the last ten year, the financial world has gone through a lot of events since Bitcoin's genesis block. Bitcoin's price has grown thousand fold and its worth the time to view the ten years of blockchain development in retrospective.

We are starting from 2010 because the blockchain development in 2009 was limited as the first set of transactions ever to take place on the Bitcoin network were undertaken in December of 2009.

The first public bitcoin trade takes place: 1000BTC traded for \$30 at an exchange rate of 0.03USD/1BTC

Bitcoin developer Gavin Andreson creates a faucet offering 5 free BTC to the public

Bitcoin protocol bug leads to emergency hard fork

February

The first ever cryptocurrency exchange, Bitcoin Market, is established. The first trade takes place a month later.

The first real-world bitcoin transaction is undertaken by Laszlo Hanyecz, who paid 10000BTC for two Papa John's pizzas (Approximately \$25 USD)

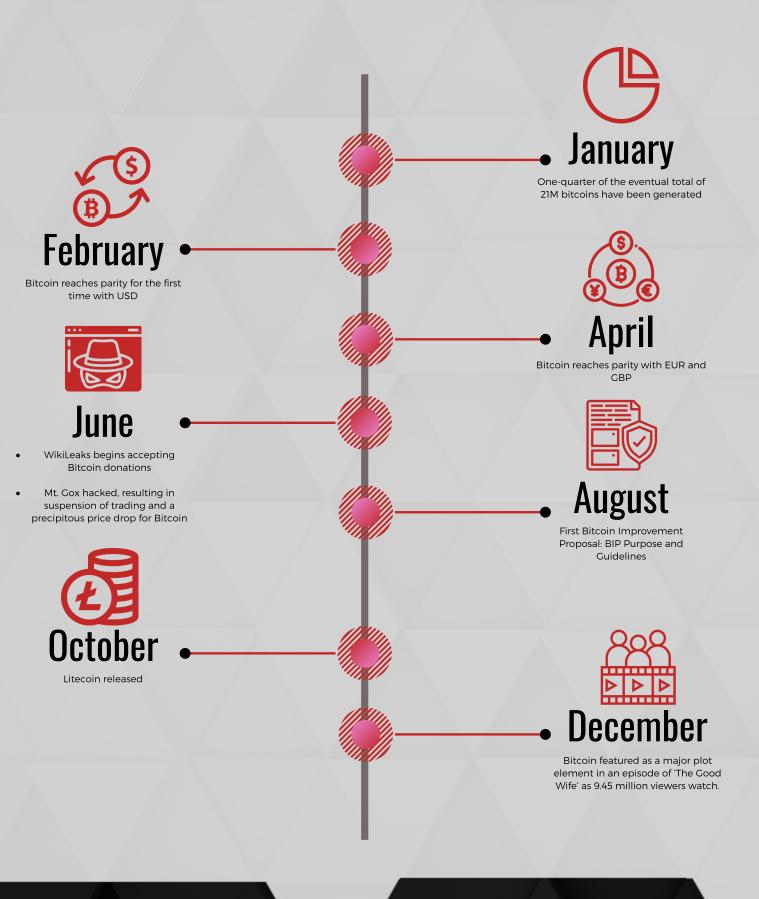

First notable usage of the word "blockchain" appears on BitcoinTalk forum. Prior to this, it was referred to as 'Proof-of-Work chain'

 Bitcoin exchange named Magic The Gathering Online eXchange also known as Mt. Cox established

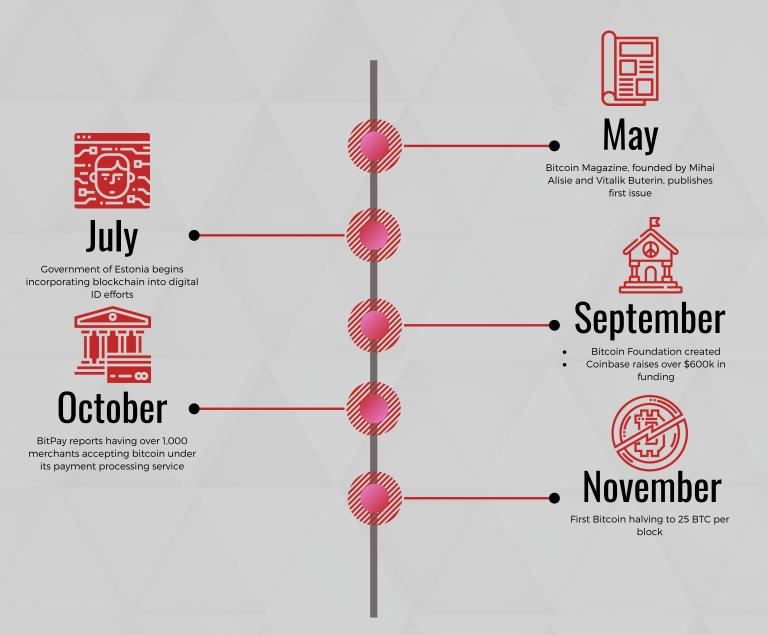

Satoshi Nakamoto ceases communication with the world

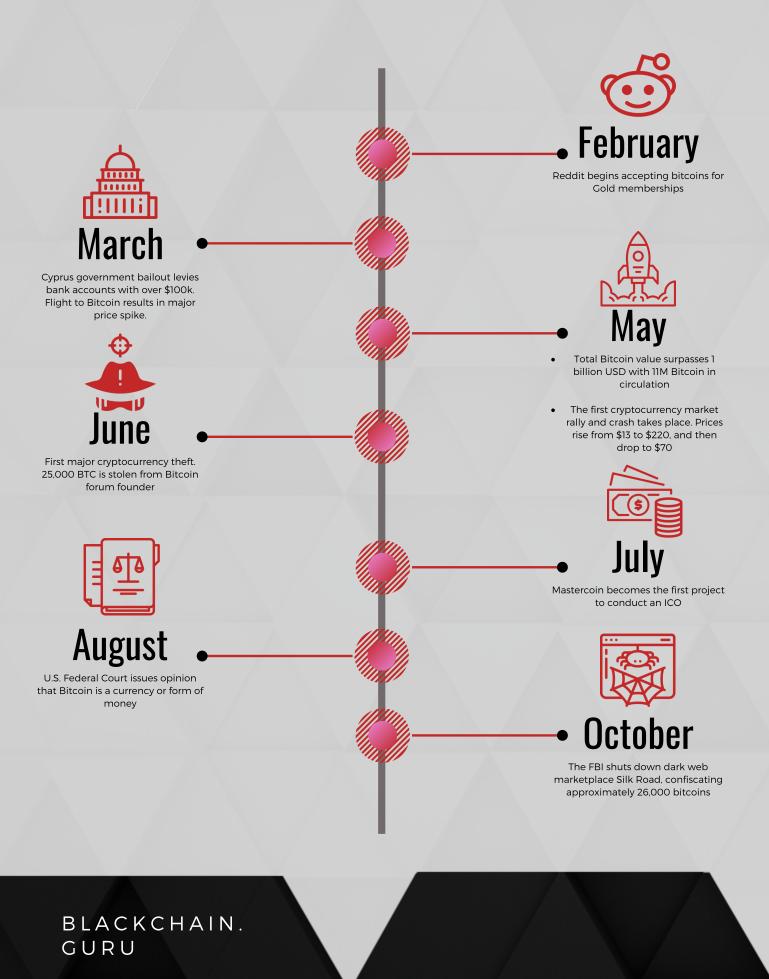

- Vitalik Buterin releases the Ethereum White Paper: "A Next-Generation Smart Contract and Decentralized Application Platform"
- Bitmain announces the release of the SI Miner
